

SmartCalls – Android App for Mobile VOIP

Installation and use instructions for SmartCalls:

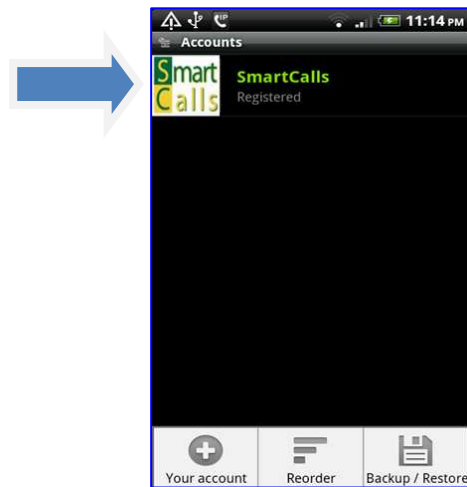

1. Search in the Android Market for SmartCalls.
2. Select SmartCalls and click install to download for free.

3. Open SmartCalls in your Android supported smartphone.
4. At account setting, enter the account name, your Username and Password (which was sent to you after you signed up in our web site or login with your Facebook account for the first time.). Press "Save".

5. When you have successfully registered, press return key in your smartphone to go to dial pad screen.

6. You can now start making calls.
